

TELEHANDLER | RH35

Machine weight: 7500kg (16500lb) Net engine power: 85kW (115.6ps)

PRODUCTIVITY AND PERFORMANCE.

RH35 telehandlers reach far and lift high, making them a go-to favorite for farming, construction, landscaping, snow removal and rental. Highly maneuverable, these telehandlers offer four steering modes – all-wheel, front-wheel, crab and semi-crab – to work efficiently in tight quarters.

Maximum maneuverability.

1 Equipped with Yuchai YCD4J22T single-row, direct injection, four-stroke, water-cooled, turbocharged engine, it has strong power and can operate stably for a long time in harsh environments, suitable for various working environments

2 Hydrostatic transmission makes it easy for operators to achieve precise machine movements even in cramped spaces. The driveline works in parallel with the braking system too; a transmission dump on the foot brake offers superb multi-functioning and increased power during loading and rehandling.

3 For excellent traction and performance in soft, muddy conditions, we've fitted the RH35 with off-road tires as standard. Choose our limited-slip differential axle to maximize traction on slippery surfaces. This system transfers drive from the spinning wheels to the fixed wheels.

OPERATIONAL SAFETY

4 The pilot lever and multi-function keys are concentrated on the handle, allowing the operator to operate quickly and easily. The lever can control the lifting and lowering of the boom and the tilting of the fork. The red button on the lever is the electric travel button, which controls the forward and backward movement of the vehicle.

5 With a compact wheelbase and large steering lock angles, tight turning circles and superior maneuverability are assured.

6 The telescopic/hydraulic quick-change/hand brake functions of the boom are all concentrated on one side, making it easier for the operator to operate.

7 The lights/wipers/turn signals are all concentrated under the steering wheel, which is convenient and easy to operate.

Reversing Image

Equipped with a reversing camera, the driver can clearly see the obstacles behind the car, improving safety, convenience and reducing accidental damage.

The shock-proof seat is made of high-tech materials, which can effectively absorb and alleviate impact, ensuring comfort while working.

COMFORT AND EASE OF USE.

IN ORDER FOR A TELEHANDLER TO OFFER ULTIMATE PRODUCTIVITY, IT NEEDS ITS OPERATOR TO BE COMFORTABLE AND FOCUSED. WITH THIS IN MIND, THE RH35 IS EQUIPPED WITH AN OPERATOR AREA THAT'S ALL-DAY COMFY, ERGONOMIC, AND DESIGNED , TO ACCOMMODATE INDIVIDUAL PREFERENCES.

Comfortably superior.

- 1 The RH35 has a large, spacious cab ,with a wide access door; inside, there's a radio speaker and plenty of underseat storage.
- 2 Tinted cab glass is available as an option; it reflects 30% of solar energy for increased operator comfort.
- 3 Intelligent LCD display can display various parameters and operating status of the machine in real time, allowing the operator to understand the operating status of the machine in time
- 4 To adapt your Loadall to any climate, the cab is equipped with air conditioning to ensure a perfect working environment.

■ **PARAMETER**

Maximum lift capacity	lb (kg)	7700 (3500)
Lift height	in (mm)	275.6 (7000)
Reach at maximum lift height	in (mm)	17.7 (450)
Maximum forward reach	in (mm)	141.7 (3600)
Weight unload	lb (kg)	15840 (7200)
Tyre		16/70-24
Outside turn radius(over tyre)	in (mm)	167.3 (4250)
Carriage roll back angle(degrees)		42.6
Carriage dump angle(degrees)		37.5
Overall height	in (mm)	90.6 (2300)
Overall width(over tyres)	in (mm)	84.6 (2150)
Inside width of cab	in (mm)	31.5 (800)
Front track	in (mm)	68.9 (1750)
Wheelbase	in (mm)	112.2 (2850)
Overall length to front tyres	in (mm)	165.4 (4200)
Overall length to front carriage	in (mm)	183.1 (4650)
Ground clearance	in (mm)	13.8 (350)
Engine brand	Yuchai YCD4J22T-115 (Euro III)	
Engine rate power	hp (KW)	113.9 (85)
Pallet fork length	in (mm)	48 (1220)
Optional engine	Yuchai YCF36110-S500 (Euro 5)/Kohler KDI2503TCR (EPA4)	

■ **WE ARE RIPPA**

Shandong Rippa Machinery Group Co., Ltd. is located in the Sixth Industrial Park, Jining high tech Zone, Shandong Province. It is a state-level high-tech enterprise with the right to import and export;

The company's employees are vigorous and enterprising, constantly creating the legend and glory of Rippa!

Shandong Rippa Machinery Group Co., Ltd.

Add: No.6 Industrial Park, Chongwen Avenue 2166, Gaoxin District, Jining City, Shandong Province

Some specifications are based on engineering measurements and may deviate from actual conditions. Specifications are for comparison purposes only and are subject to change without notice. Specifications of individual RIPPA equipment will vary based on normal variations in design, manufacturing, operating conditions and other factors. Some pictures of RIPPA equipment are not limited to standard packages.
